EXAMINER'S COMMENTS

1. The after-final amendment filed on September 12, 2007 is being entered because it obviates all objections and rejections as cited by the examiner in the previous Office action.
2. Applicant's amendments and arguments have obviated the examiner's objections to the drawings as cited in the previous Office action. The drawings filed on February 4, 2004 are thus hereby accepted and approved.
3. Claim 1 is allowable. The restriction requirement between the various species, as set forth in the Office action mailed on May 1, 2006 has been reconsidered in view of the allowability of claims to the elected invention pursuant to MPEP § 821.04(a). **The restriction requirement is hereby withdrawn as to any claim that requires all the limitations of an allowable claim.** Claims 3 through 5 and 7, directed to previously non-elected species are no longer withdrawn from consideration because the claims requires all the limitations of an allowable claim.

In view of the above noted withdrawal of the restriction requirement, applicant is advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application.

Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

4. Thus, claims 1 through 12 and 16 are allowed.
